

The Situations:

You have recently become a franchisee owner at Maven Roasters, a coffee shop chain with the three locations in New York City.

The Assignments:

To better understanding the purchase behaviour and streamline operations, you have collected transactions data from Jan-Jun 2023.

Your goal is to start transform the data into dynamic dashboard that Franchisee owners can used to identify patterns, trends and opportunities for the business.

The Objective:

1. Profile and prepare the raw data for analysis
2. Explore the data with Excel PivotTable
3. Build a dynamic dashboard to viz patterns and trends
